

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2013 and 2012
(US\$, unless otherwise stated)

This Management's Discussion and Analysis ("MD&A") document dated November 27, 2013 is provided by the management of Loon Energy Corporation ("Loon Corp" or "Company") and should be read in conjunction with the condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2013 and 2012, the audited consolidated financial statements for the years ended December 31, 2012 and December 31, 2011 and the 2012 annual MD&A.

Basis of Presentation

This MD&A is prepared using United States dollars ("US Dollars") which is the reporting currency of the Company. The condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2013 are prepared in accordance with IAS 34 Interim Financial Reporting and do not include all of the information required for full annual financial statements.

In accordance with National Instrument 51-102 released by the Canadian Securities Administrators, the Company confirms that its auditors have not reviewed the condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2013.

Overview

Loon Energy Corporation is an international oil and gas exploration and development company with management offices in Calgary, Alberta, Canada and in Dubai, United Arab Emirates. Loon Corp was incorporated pursuant to the provisions of the *Business Corporation Act (Alberta)* ("ABCA") on October 30, 2008 to receive certain of the oil and gas assets of Loon Energy Inc. ("Loon") in accordance with a Plan of Arrangement ("Arrangement") under the ABCA. Pursuant to the Arrangement, the assets of Loon in Colombia and Peru were transferred to Loon Corp, each Loon shareholder received one common share of Loon Corp for each Loon share held, the common shares of Loon Corp were listed on the TSX Venture Exchange under the symbol LNE and Loon Corp received \$3.15 million of cash. Coincident with the implementation of the Arrangement on December 10, 2008 Loon changed its name to Kulczyk Oil Ventures Inc. ("Kulczyk Oil"), and then to Serinus Energy Inc. ("Serinus") effective June 24, 2013.

Operations Overview

Guatemala

During the first nine months of 2013, the Company incorporated a new indirect wholly-owned entity, Zacapa Energy Ltd., which subsequently changed its name to Loon Petroleo Ltd. ("Loon Petroleo"), for the purpose of establishing a branch in Guatemala through which separate bids were submitted for three exploration blocks located in Guatemala. For purposes of the submissions, performance bonds in the aggregate amount of \$0.3 million were posted.

During the third quarter of 2013, the Company was notified that it had been awarded one of the blocks that had been bid for following which the cash posted for the two unsuccessful bids of \$0.2 million was released. Management is considering its options in respect of pursuing activities in Guatemala, including the possibility of acquiring additional oil and gas properties in Guatemala.

Colombia

Buganviles Association Contract

Through a farm-in agreement, the Company earned a 20% non-operated participating interest in a 60,817 hectare block of land covered by the Buganviles Association Contract between Holywell Resources S.A. and Empresa Colombiana de Petróleos ("Ecopetrol"), the Colombian national oil company. The Buganviles Association Contract lands are located in the Upper Magdalena Valley area of central Colombia. The Company has fulfilled its required work commitments with respect to this contract area and Ecopetrol approved the Operator's Commerciality Application in March 2009 for the Delta-1 well. The license for the Buganviles Association Contract had expired on June 30, 2012, however, during the

current quarter, notification was received from the operator that the Buganviles Association Contract has been extended to November 16, 2028.

Loon Corp presently holds a net 10% working interest in the Buganviles Association Contract area as a result of the farm-out agreement with an unrelated company concluded in 2010.

The Company does not currently have any definitive plans to return to the drilling program or further develop the concession.

Peru

The Company, through its indirectly wholly-owned subsidiary, Loon Peru Limited (öLoon Peruö), has an exploration license contract with PERUPETRO S.A granting Loon Peru the right to explore for and produce hydrocarbons from Block 127 in the Maranon Basin area of northeast Peru. The Block 127 license was relinquished in 2010. The Operator is currently executing an abandonment plan for Block 127 and all abandonment activities are expected to be completed in early 2014.

Significant factors affecting Company's results of operations

The Company has not been operational during 2013 and 2012, though the Company continues to pursue the acquisition of international oil and gas opportunities.

General and Administrative Expenses

The general and administrative expenses for the three and nine month periods ended September 30, 2013 were \$83,528 and \$477,514, compared to \$72,063 and \$282,948 for the comparative three and nine month periods ended September 30, 2012. The increase in 2013 general and administrative expenses is attributable to activities in Guatemala, including incorporation of a new subsidiary, the establishment of a new branch in Guatemala and an increase in consulting, advisory and legal costs related to the submission of bids for three oil and natural gas licenses in Guatemala.

Stock based compensation

Stock based compensation expense for the three and nine month period ended September 30, 2013 was \$1,919 and \$7,073, compared to \$ 59,633 and \$171,571 for the comparative periods ended September 30, 2012. The stock based compensation arises from the issuance of options to Directors, officers and consultants of the Company during the third quarter of 2010 and the third quarter of 2012. The decrease in the 2013 expense, as compared to 2012, reflects the vesting of the 2010 options.

Decommissioning obligation

Accretion expense for the three and nine months ended September 30, 2013 was \$916 and \$2,748, compared to \$873 and \$2,619 for the comparative periods ended September 30, 2012. As of September 30, 2013, the Peruvian and Colombian assets were fully accreted with the exception of certain properties in Colombia. The accretion to the decommissioning obligation for these remaining properties will be recognized over the next three years.

Related Party Transactions

The Company has no employees, and management and administrative services are provided by the management and staff of Serinus pursuant to a services agreement. Administrative costs incurred by Serinus for the benefit of the Company are charged to the Company based on specific identification and an allocation of administrative costs that relate to both Serinus and the Company. For the three and nine months ended September 30, 2013, these fees totaled \$2,883 and \$8,795 (2012 - \$2,950 and \$9,071). At September 30, 2013, the Company owed \$30,108 (December 31, 2012 - \$20,873) to Serinus for these services. Certain expenditures of the Company are paid by Serinus on behalf of the Company and as at September 30, 2013 the Company owed \$65,404 (December 31, 2012 - \$82,965) for these costs. Serinus and the Company are related as they have five common directors and officers, and the same principal shareholder.

Serinus remains legally responsible for a guarantee issued in August 2007 (the **Loon Peru Guarantee**) to the Government of Peru regarding the granting of the Block 127 license contract to Loon Peru Limited, an indirectly wholly-owned subsidiary of the Company. The block to which the guarantee is related is in the process of being relinquished and it is not currently anticipated that the guarantee will be replaced. The Company has entered into an indemnification agreement with Serinus in respect of the Loon Peru Guarantee. The Company has fulfilled its work commitments under the first phase of the exploration program, and the Company and its partners in the Block announced on October 25, 2010 that the joint venture will not proceed to the second exploration phase.

The above related party transactions were recorded at exchange amounts agreed to by both parties which approximate fair value.

Liquidity and Capital Resources

The Company is an oil and gas exploration and development company with properties principally located in Colombia. Of the Company's properties in Colombia, the Delta-1 well is in the development stage with two other wells in the exploration stage. The properties have no proved reserves at September 30, 2013. The Company does not generate sustained, commercial production from operations.

The Company's consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business and do not reflect adjustments that would otherwise be necessary if the going concern assumption was not valid. To date, the Company's exploration and development operations have been financed by way of equity issuances, debt facilities and by farm-out arrangements with third parties who pay for all or a portion of the Company's expenditures to earn a portion of the Company's ownership interests. As at September 30, 2013 the Company has a working capital deficiency of \$135,877 and incurred a net loss of \$494,472 for the nine month period ended September 30, 2013. The Company is pursuing international oil and gas opportunities and will require additional capital to fund the working capital deficit, ongoing operating activities and international exploration activities. The need to raise capital to fund the working capital deficit, ongoing operations, acquire

additional concessions and for exploration and development opportunities creates a significant doubt as to the Company's ability to continue as a going concern. There are no guarantees that additional capital, either through additional equity, debt or farm-out arrangements will be available when needed.

Forward Looking Statements

This MD&A contains forward-looking statements. These statements relate to future events or future performance of the Company. When used in this MD&A, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "predict", "seek", "propose", "expect", "potential", "continue", and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Company's current views with respect to certain events, and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Company's actual results, performance, or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated, or expected. Specific forward-looking statements in this MD&A, among others, include statements pertaining to the following:

- factors upon which the Company will decide whether or not to undertake a specific course of action;
- world-wide supply and demand for petroleum products;
- expectations regarding the Company's ability to raise capital;
- treatment under governmental regulatory regimes; and
- commodity prices.

With respect to forward-looking statements in this MD&A, the Company has made assumptions, regarding, among other things:

- the impact of increasing competition;
- the ability of farm-out partners to satisfy their obligations;
- the Company's ability to obtain additional financing on satisfactory terms; and
- the Company's ability to attract and retain qualified personnel.

The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this MD&A:

- general economic conditions;
- volatility in global market prices for oil and natural gas;
- competition;
- liabilities and risks, including environmental liability and risks, inherent in oil and gas operations;
- the availability of capital; and
- alternatives to and changing demand for petroleum products.

Furthermore, statements relating to "reserves" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the resources and reserves described can be profitable in the future.

The forward-looking statements contained in this MD&A are expressly qualified in their entirety by this cautionary statement. These statements apply only as of the date of this MD&A.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reporting amounts of assets, liabilities, income and expenses. Actual results could differ from these estimates.

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2013 and 2012
(US\$, unless otherwise stated)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In the opinion of management, the Company's consolidated financial statements have been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies outlined in the consolidated financial statements.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes to those consolidated financial statements as at and for the year ended December 31, 2012:

- Notes 5, 6 and 7 ó Impairment of property and equipment and evaluation and exploration assets
- Note 8 ó Decommissioning provision
- Note 10 ó Stock-based compensation

Internal Controls over Financial Reporting

The board of directors, through its Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Audit Committee meets at least annually with the Company's external auditors to review accounting, internal control, financial reporting, and audit matters. Internal controls over financial reporting have not changed significantly since the last reporting period.

Changes in Accounting Policies

On January 1, 2013, the Company adopted new standards with respect to consolidation (IFRS 10), joint arrangements (IFRS 11), disclosure of interest in other entities (IFRS 12), fair value measurements (IFRS 13), amendments to financial instrument disclosures (IFRS 7) as well as amendments related to investments in associates and joint ventures (IAS 28). The adoption of these amendments and standards had no impact on the amounts recorded in the consolidated financial statements as at January 1, 2013 or on the comparative periods.

Approval

The Company's Board of Directors has approved the disclosure contained within this MD&A on November 27, 2013.
