

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2014 and 2013
(US\$, unless otherwise stated)

This Management's Discussion and Analysis ("MD&A") document dated November 26, 2014 is provided by the management of Loon Energy Corporation ("Loon Corp" or "Company") and should be read in conjunction with the condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2014 and 2013, the audited consolidated financial statements for the year ended December 31, 2013 and the 2013 annual MD&A.

Basis of Presentation

This MD&A is prepared using United States dollars ("US Dollars") which is the reporting currency of the Company. The condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2014 are prepared in accordance with IAS 34 Interim Financial Reporting and do not include all of the information required for full annual financial statements.

In accordance with National Instrument 51-102 released by the Canadian Securities Administrators, the Company confirms that its auditors have not reviewed the condensed consolidated interim financial statements for the three and nine month periods ended September 30, 2014.

Overview

Loon Energy Corporation is an international oil and gas exploration and development company with management offices in Calgary, Alberta, Canada and in Dubai, United Arab Emirates. Loon Corp was incorporated pursuant to the provisions of the *Business Corporation Act* (Alberta) ("ABCA") on October 30, 2008 to receive certain of the oil and gas assets of Loon Energy Inc. ("Loon") in accordance with a Plan of Arrangement ("Arrangement") under the ABCA. Pursuant to the Arrangement, the assets of Loon in Colombia and Peru were transferred to Loon Corp, each Loon shareholder received one common share of Loon Corp for each Loon share held, the common shares of Loon Corp were listed on the TSX Venture Exchange under the symbol LNE and Loon Corp received \$3.15 million of cash. The implementation of the Arrangement on December 10, 2008 also resulted in Loon changing its name to Kulczyk Oil Ventures Inc. ("Kulczyk Oil"). Effective June 24, 2013, Kulczyk Oil changed its name to Serinus Energy Inc. ("Serinus").

Operations Overview

Colombia

Buganviles Association Contract

Through a farm-in agreement, the Company earned a 20% non-operated participating interest in a 60,817 hectare block of land covered by the Buganviles Association Contract between Holywell Resources S.A. and Empresa Colombiana de Petróleos ("Ecopetrol"), the Colombian national oil company. The Buganviles Association Contract lands are located in the Upper Magdalena Valley area of central Colombia. The Company earned its interest by paying \$1.0 million of the estimated \$3.4 million "dry-hole" cost of the Delta-1 well plus 20% of costs incurred thereafter. The Company has fulfilled its required work commitments with respect to this contract area. The Delta-1 well came on production late in September 2008, and Ecopetrol approved the Operator's Commerciality Application in March 2009. The license for the Buganviles Association Contract had expired on June 30, 2012, however, in 2013 notification was received from the Operator that the term of the Buganviles Association Contract has been extended to November 16, 2028.

During fiscal 2010, Loon Corp entered into a farm-out agreement with Petrodorado South America S.A. ("Petrodorado") under which Petrodorado agreed to pay Loon Corp's 20% share of the authorized cost to drill and complete two wells in Colombia to earn 75% (net 15%) of Loon Corp's interest in the Buganviles Association Contract, excluding the Delta-1 well. The farm-out agreement included an option for the Company to re-acquire a reversionary interest. The exercise of this option by the Company in November 2010 reduced the working interest earned by Petrodorado from net 15% to net 10%. As a result, Loon Corp holds a net 10% working interest in the Buganviles Association Contract area.

The Company received cash calls from the Operator to fund the drilling and completion of two Buganviles wells – Visure-1X and Tuqueque-1X. Upon the execution of the farm-out agreement in September 2010, these cash call amounts became payable by Petrodorado. To date Petrodorado has paid a total of \$2 million under the farm-out agreement. The Company

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2014 and 2013
(US\$, unless otherwise stated)

has recorded a receivable from Petrodorado for \$232,708 representing the unpaid cash calls to be paid by Petrodorado to fund the drilling of these two wells on behalf of the Company under the terms of the farm-out agreement and which forms a portion of both the accounts receivable from Petrodorado and accounts payable to the Operator.

The Company does not currently have any definitive plans to return to the drilling program or further develop the concession.

Peru

The Company, through its wholly-owned subsidiary, Loon Peru Limited ("**Loon Peru**"), had an exploration license contract with PERUPETRO S.A granting Loon Peru the right to explore for and produce hydrocarbons from Block 127 in the Maranon Basin area of northeast Peru.

In 2010, the Operator, Compañía Española de Petróleos, S.A. ("**CEPSA**"), and Loon decided to not enter into the second exploration phase and withdraw from Block 127. All petroleum and natural gas property expenditures related to Block 127 were fully written off in 2010. During Q3 2014, the Company received notification from CEPSA that Loon Peru no longer had any obligations owed arising from its former property in Peru, including further abandonment and reclamation activities. All costs related to the Company's property in Peru had been written-off in previous periods. As result, Loon recognized \$120,000 of other income relating to the reversal of the decommissioning provision during the period ended September 30, 2014.

Guatemala

During 2013, the Company incorporated a new indirect wholly-owned entity, Zacapa Energy Ltd., which subsequently changed its name to Loon Petroleo Ltd. ("**Loon Petroleo**"), for the purpose of establishing a branch in Guatemala through which separate bids were submitted for three exploration blocks located in Guatemala. For purposes of the submissions, performance bonds in the aggregate amount of \$0.3 million were posted.

In 2013 the Company was notified that it had been awarded one of the blocks that had been bid for following which the cash posted for the two unsuccessful bids of \$0.2 million was released. Management decided to not pursue activities in Guatemala and the remaining cash posted for the awarded bid of \$0.1 million was returned to the Company.

Significant factors affecting Company's results of operations

The Company has not been operational during 2014 and 2013, though the Company continues to pursue the acquisition of international oil and gas opportunities.

During 2012, CAD \$1.0 million was raised, as further described in Share Data below.

The following table summarizes the weighted average common shares used in calculating the net loss per share.

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Basic and diluted	<u>19,949,136</u>	<u>19,949,136</u>	<u>19,949,136</u>	<u>19,949,136</u>

General and Administrative Expenses

The general and administrative expenses for the three and nine months periods ended September 30, 2014 were \$30,580 and \$77,357 compared to \$83,528 and \$477,514 for the comparative periods ended September 30, 2013. Higher general and administrative expenses in 2013 is attributable to activities in Guatemala, including incorporation of a new subsidiary, the establishment of a new branch in Guatemala and an increase in consulting, advisory and legal costs related to the submission of bids for three oil and natural gas licenses in Guatemala.

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Advisory costs	24,514	75,107	55,233	386,927
Third party overhead	-	-	-	19,230
Other administration costs	6,066	8,421	22,124	71,357
	<u>\$ 30,580</u>	<u>\$ 83,528</u>	<u>\$ 77,357</u>	<u>\$ 477,514</u>

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2014 and 2013
(US\$, unless otherwise stated)

Stock based compensation

Stock based compensation expense for the three and nine month period ended September 30, 2014 was \$455 and \$1,844, compared to \$1,919 and \$7,073 for the comparative periods ended September 30, 2013. The stock based compensation arises from the issuance of options to Directors, officers and consultants of the Company during the third quarter of 2010 and the third quarter of 2012. The decrease in the 2014 expense, as compared to 2013, reflects the vesting of the 2010 options.

Other Income

During the three and nine month periods ended September 30, 2014, the Company recorded \$120,000 (2013: \$nil) of other income arising from the reversal of the decommissioning liability in Peru.

Decommissioning obligation

Accretion expense for the three and nine months ended September 30, 2014 was \$732 and \$2,196 compared to \$916 and \$2,748 for the comparative periods ended September 30, 2013. As of September 30, 2014, the Peruvian and Colombian assets were fully accreted with the exception of Ventilador, Visure and Tuqueque properties in Colombia. The accretion to the decommissioning obligation for these remaining properties will be recognized over the next two years.

Summary of Quarterly Data

The following tables set forth selected quarterly financial information for the most recent eight financial quarters.

	<u>Q3 2014</u>	<u>Q2 2014</u>	<u>Q1 2014</u>	<u>Q4 2013</u>

(US\$, unless otherwise stated)

Share Data

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preferred shares. There are no preferred shares outstanding.

	Number of Shares	Carrying amount
Balance, December 31, 2013 and September 30, 2014	19,949,136	\$ 16,570,265

In June 2012, the Company completed a non-brokered private placement consisting of 10,000,000 common shares at an issue price of CAD\$0.10 per share for gross proceeds of CAD\$1,000,000 (USD\$ 1,006,395). The Company paid \$27,366 in share issue costs.

The following table summarizes information about the options outstanding as at September 30, 2014:

	Options Outstanding	Weighted Average Exercise Price	Weighted Average Contractual Life (years)
Balance outstanding, December 31, 2013	688,500	\$ 0.13	2.9
Balance outstanding, September 30, 2014	688,500	\$ 0.13	2.2
Exercisable at September 30, 2014	558,167	\$ 0.13	2.0

There have been no changes in the number of shares or share purchase options outstanding between September 30, 2014 and November 26, 2014.

Related Party Transactions

The Company has no employees, and management and administrative services are provided by the management and staff of Serinus pursuant to a services agreement. Administrative costs incurred by Serinus for the benefit of the Company are charged to the Company based on specific identification and an allocation of administrative costs that relate to both Serinus and the Company. For the three and nine months ended September 30, 2014, these fees totaled \$2,745 and \$8,213 (2013 - \$2,883 and \$8,795). At September 30, 2014, the Company owed \$nil (December 31, 2013: \$nil) to Serinus for these services. Serinus and the Company are related as they have five common directors and officers and the same principal shareholder.

Serinus remains legally responsible for a guarantee issued in August 2007 (“the Loon Peru Guarantee”) to the Government of Peru regarding the granting of the Block 127 license contract to Loon Peru Limited, a wholly-owned subsidiary of the Company. The block to which the guarantee is related has been relinquished and it is not currently anticipated that the guarantee will be replaced. The Company has entered into an indemnification agreement with Serinus in respect of the Loon Peru Guarantee which will be formally terminated once confirmation has been received from Peruvian authorities that the guarantee has been terminated.

The above related party transactions were recorded at exchange amounts agreed to by both parties which approximate fair value.

Liquidity and Capital Resources

The Company is an oil and gas exploration and development company with properties located in Colombia. Of the Company's properties in Colombia, the Delta-1 well is in the development stage with two other wells in the exploration stage. The properties have no proved reserves at September 30, 2014. The Company does not generate sustained, commercial production from operations.

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2014 and 2013
(US\$, unless otherwise stated)

The Company's consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business and do not reflect adjustments that would otherwise be necessary if the going concern assumption was not valid. To date, the Company's exploration and development operations have been financed by way of equity issuances, debt facilities and by farm-out arrangements with third parties who pay for all or a portion of the Company's expenditures to earn a portion of the Company's ownership interests. As at September 30, 2014 the Company has a working capital deficiency of \$175,227. The Company is pursuing international oil and gas opportunities and will require additional capital to fund the working capital deficit, ongoing operating activities and international exploration opportunities. The need to raise capital to fund the working capital deficit, ongoing operations, acquire additional concessions and for exploration and development opportunities creates a significant doubt as to the Company's ability to continue as a going concern. There are no guarantees that additional capital, either through additional equity, debt or farm-out arrangements will be available when needed.

Forward Looking Statements

This MD&A contains forward-looking statements. These statements relate to future events or future performance of the Company. When used in this MD&A, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "predict", "seek", "propose", "expect", "potential", "continue", and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Company's current views with respect to certain events, and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Company's actual results, performance, or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated, or expected.

Specific forward-looking statements in this MD&A, among others, include statements pertaining to the following:

- factors upon which the Company will decide whether or not to undertake a specific course of action;
- world-wide supply and demand for petroleum products;
- expectations regarding the Company's ability to raise capital;
- treatment under governmental regulatory regimes; and
- commodity prices.

With respect to forward-looking statements in this MD&A, the Company has made assumptions, regarding, among other things:

- the impact of increasing competition;
- the ability of farm-out partners to satisfy their obligations;
- the Company's ability to obtain additional financing on satisfactory terms; and
- the Company's ability to attract and retain qualified personnel.

The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this MD&A:

- general economic conditions;
- volatility in global market prices for oil and natural gas;
- competition;
- liabilities and risks, including environmental liability and risks, inherent in oil and gas operations;
- the availability of capital; and
- alternatives to and changing demand for petroleum products.

Furthermore, statements relating to "reserves" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the resources and reserves described can be profitable in the future.

Loon Energy Corporation
Management's Discussion and Analysis
For the three and nine month periods ended September 30, 2014 and 2013
(US\$, unless otherwise stated)

The forward-looking statements contained in this MD&A are expressly qualified in their entirety by this cautionary statement. These statements apply only as of the date of this MD&A.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reporting amounts of assets, liabilities, income and expenses. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In the opinion of management, the Company's consolidated financial statements have been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies outlined in the consolidated financial statements.

Internal Controls over Financial Reporting

The board of directors, through its Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Audit Committee meets at least annually with the Company's external auditors to review accounting, internal control, financial reporting, and audit matters. Internal controls over financial reporting have not changed significantly since the last reporting period.

Changes in Accounting Policies

On January 1, 2014, the Company adopted the amendment to IAS 36. This amendment requires entities to disclose the recoverable amount of an impaired Cash Generating Unit if the amount is based on fair value less costs of disposal. Adoption of the amendment had no impact to the consolidated financial statements.

In December 2013, the International Accounting Standards Board ("IASB") issued narrow-scope amendments to a total of nine standards as part of its annual improvements process. The Company intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2015. The extent of the impact of adoption of the amendments has not yet been determined.

On May 28, 2014 the IASB issued IFRS 15 *Revenue from Contracts with Customers*. The new standard is effective for fiscal years ending on or after December 31, 2017. The Company intends to adopt IFRS 15 in its financial statements for the annual period beginning on January 1, 2017. The extent of the impact of adoption of the standard has not yet been determined.

On July 24, 2014 the IASB issued IFRS 9 Financial Instruments. The package of improvements introduced by IFRS 9 includes a revised model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting. The new Standard will come into effect on 1 January 2018 with early application permitted. The extent of the impact of adoption of the standard has not yet been determined.

Approval

The Company's Board of Directors approved the disclosure contained within this MD&A on November 26, 2014.

Additional Information

Additional information regarding the Company and its business and operations is available on the Company's profile at www.sedar.com. Copies of the information can also be obtained by contacting the Company at Loon Energy Corporation 1500, 700 – 4th Avenue S.W., Calgary, Alberta, Canada T2P 3J4 (Phone: +1 403 264-8877) or by e-mail at ryaniw@loonenergy.com.
